

Misasa International Students Internship Program 2008

Jul. 1 - Aug. 8, 2008

Institute for Study of the
Earth's Interior
Okayama University,
JAPAN

The Institute for Study of the Earth's Interior (ISEI), Misasa, Japan, is accepting applications for international student intern program. The annual Misasa International Student Intern Program for advanced undergraduate (3rd to 4th year) and master's course students has been planned to promote international collaborative research and education. During the intern program, students will work closely with ISEI faculty members and their research groups on currently active research projects. Researches at ISEI generally fall into one of the following areas:

- (1) Geochemistry and geochronology
- (2) High-pressure experimental mineral physics
- (3) Crystal chemistry and magmalogy

Perspective applicants are encouraged to contact ISEI faculty member(s) for more information. It is hoped that through this program, the participants will acquaint themselves with the state-of-the-art research facilities and activities at ISEI, and gain advanced scientific research experience. At the conclusion of the program, an intern symposium will be held for all the participants to deliver oral presentations of their work in English.

Number of participants: about **15**.

Travel expense and daily allowance will be fully covered, and accommodation in the Misasa guesthouse will be provided.

All application materials must be received by **April 15, 2008**.

For inquires concerning the intern program, please contact

Dr. Xianyu Xue, the program coordinator (xianyu@misasa.okayama-u.ac.jp).
